## PROJECTS

**AI & Workflow Automation Projects**

- **AI Chatbot (n8n + JavaScript)**
  Developed an entry-level AI chatbot using n8n and JavaScript. It accepts user input, processes it through automated workflows, and returns dynamic responses—demonstrating the integration of no-code platforms with custom logic.

- **Multi-Level Approval Workflow System**
  Developed an automated approval process in Power Automate supporting up to 5 dynamic approval stages. Each stage triggered based on assigned roles or logic conditions. Included auto-reminders, and SharePoint integration for real-time tracking.

**Freelancing Projects (Web App)**

- **Moonlight Café (Laravel)**
  - Implemented Custom User oriented QR code generation for each restaurant table to enable contactless ordering.
  - Developed a responsive, user-friendly menu interface using Blade templating for smooth UX on mobile and desktop devices.
  - Integrated real-time order status updates, reducing manual tracking time by 40
  - Managed secure customer data handling and order transactions leveraging Laravel's built-in authentication and database ORM (Eloquent).
  - Designed admin panel for restaurant managers to add/update menu items, pricing, and track orders efficiently.

- **Nursing College – Multi College Fees Management System**
  - Secured user authentication using Bcrypt password hashing in a multi-user login system.
  - Enabled college-level data isolation using session-based filtering.
  - Implemented role-based access control for Admin and Regular User login.
  - Designed dynamic dashboards with student-wise and course-wise fee analytics
  - Integrated auto fee calculation for hostel, food, scholarship, and tuition categories,etc Dynamic Fees Management System.
  - Built searchable and paginated tables with server-side filtering.

- **Isekaionly – Anime News Platform (Laravel)**
  - Implemented user authentication and authorization using Laravel's built-in features to ensure secure access.
  - Designed an intuitive admin dashboard for managing news articles, categories, and user comments.
  - Automated daily anime news updates through scheduled tasks
  - Enabled rich text content editing and media uploads for enhanced article presentation.
